PETITIONS OFFICE

Sir:

This is a Petition to the Commissioner seeking acknowledgement by the Patent Office of a minor typographical error that occurred in Application Serial No. 09/149,747 which matured as the above U.S. Patent No. 6,142,632.

The Examiner in his office action of November 25, 1998, rejected claims of the application under the judicially created doctrine of double patenting with regard to U.S. Patent No. 5,803,501. As a result, a Terminal Disclaimer was filed March 25, 1999, with respect thereto, but because of a typographical error, U.S. Patent No. "5,417,431" was named in the

Terminal Disclaimer. There was a subsequent rejection letter dated June 22, 1999, by the Examiner because he indicated that the person who signed the Terminal Disclaimer was not recognized as an officer of the Assignee, and accordingly further papers were filed August 16, 1999, confirming the authority of the signature to the Terminal Disclaimer. A subsequent letter was filed on January 20, 2000, to clarify the identity of the signatories pursuant to a later request by the Examiner. As a result, a Notice of Allowance was issued June 5, 2000. Throughout the exchange of correspondence, no one, neither the Examiner nor the attorney prosecuting the application, noticed the typographical error with regard to the wrong patent number. Subsequently, a Request for a Certificate of Correction dated June 7, 2002, was filed after this typographical error was noted, along with supporting papers with regard to the error and documents confirming by the inventor and assignees, the typographical error and acknowledging that the Terminal Disclaimer was intended to be with regard to Patent No. 5,803,501 (which the Examiner has raised) rather than the incorrect Patent No. 5,417,431. The originals of these papers are already on file in the patent file, and copies are submitted herewith.

It is respectfully submitted that this matter merely involves a typographical error with respect to a patent number, and correction and acknowledgement of the same does not in any way extend the monopoly of present Patent No. 6,142,532. Accordingly, granting of a Petition acknowledging the error and correction thereof is requested.

The Commissioner is authorized to charge the Petition fee in the amount of \$130.00, and any other fees which may be required for this petition, to Deposit Account No. 12-2475.

Respectfully submitted,

REQUEST FOR CERTIFICATE OF CORRECTION OF PATENT

Commissioner for Patents
Washington, D.C. 20231

Attention: Certificate of Correction Branch

FAX RECEIVED

NOV 12 2002

PETITION'S OFFICE

A certificate of correction is requested herein to replace the reference to Patent "No. 5,417,431" with Patent -- No. 5,803,501 -- in Terminal Disclaimer papers filed in the application which matured into the above patent because the reference to Patent No. 5,417,431 was a clerical or typographical error of a minor character.

A Terminal Disclaimer was filed because the Examiner in the Office Action of November 25, 1998, rejected certain claims under the judicially created doctrine of double patenting over claims of U.S. Patent No. 5,803,501. Obviously, the intent in filing the Terminal Disclaimer was to overcome the double patenting rejection as offered by the Examiner, and the attorney prosecuting the application, the signator to the Terminal Disclaimer and the Examiner overlooked this typographical error.

Patent
251/187

The intent at all times was to perfect a Terminal Disclaimer with respect to 5,803,501, and the error in naming Patent No. 5,417,431 was merely a typographical one with no deceptive intent. The Examiner had based his rejection on 5,803,501 and thus no reexamination is needed. Furthermore, there is no new matter involved.

The purpose of the present Certificate of Correction is to correct this typographical error and make it of record, as well as to provide a confirmation from the then-identified assignee, as well as the subsequent assignees in the chain of title to the present acknowledging and confirming the disclaimer in the present Patent No. 6,124,532 with respect to Patent No. 5,803,501.

Submitted herewith are executed acknowledgements of the typographical error and agreement to the terminal disclaimer with respect to Patent No. 5,803,501 in this Patent No. 6,124,532.

REMARKS

Reconsideration of this application is requested.

Claim 7 has been amended to correct the language problem noted by the Examiner.

With regard to the double patenting rejection, a Terminal Disclaimer is filed herewith. It is noted that this is a fax copy from the Assignee of the present application, and the original will be forwarded for filing in this application when it is received by mail.

Turning now to the Section 102 and 103 rejection, it is respectfully submitted that the cited German patent does not anticipate or make obvious the subject matter of the present claims. Furthermore, and more importantly, the parent of the present application was filed in the United States on December 15, 1994, and the German patent only has a publication date of July 13, 1995, and, thus, does not seem to be relevant prior art.

In view of the foregoing, a Notice of Allowance is earnestly solicited.

We enclose our check No. 1671 in the amount of \$165.00 as payment of the disclaimer fee (\$110) and one (1) month extension of time (\$55). The Commissioner is authorized to charge Counsel's Deposit Account No. 12-2475 for any fees required that are not covered, in whole or in part, by a check enclosed herewith and to credit any overpayments to said Deposit Account 12-2475.

PETITIONS OFFICE

Sir:

On August 31, 2002, the owner of U.S. Patent No. 6,142,532 filed a petition to the Commissioner. A copy of the petition papers is transmitted herewith for your convenience. The patent owner hereby requests expedited handling of the petition. The required fee of \$130.00 and any additional fees necessitated by this filing may be charged to Miles & Stockbridge Deposit Account No. 50-11651.

Expedited handling of the August 31, 2002, petition is requested because the rights in and relating to the '532 patent are subject to litigation, as shown by documents already of record. The requested certificate would correct a reference to U.S. Patent No. 5,803,501, which is involved in case no. 02-1412 currently pending before the U.S. Court of Appeals for the Federal Circuit. In addition, the previously submitted "Complaint for Patent Infringement (U.S. Patent No. 6,142,532)" is awaiting the granting of the

requested Certificate of Correction before filing in court. Due to these exigent circumstances, expedited handling of the petition is urgently requested.

Respectfully submitted,

MILES & STOCKBRIDGE P.C.
